

SANI-LIFE 4.0
SANITATION TUNNEL

The events of the last period made it clear how important prevention is. To meet this need we studied a safe and effective method, which guarantees correct sanitation of objects and people.

Il portale di sanificazione Sani-Life 4.0, brevettato e costruito da Conall, è un dispositivo certificato CE che utilizza un disinfettante a raggi UV che sterilizza la superficie. È in grado di sanificare la superficie di cute e vestiti in 15 secondi, in modo completamente inodore e ipoallergenico, rinfrescante e salubre. Non macchia, non lascia segni. Rispetta il PH della pelle, gli occhi, le vie respiratorie.

SANI-LIFE 4.0 IS A TUNNEL OF COMPLETE AND NOT INVASIVE SANITIZATION PLACEABLE ALSO INDOOR.

The patented nozzle system creates a dry and refreshing hypoallergenic air mist harmless to the skin, eyes and the respiratory tract.

Does not stain or wet, it does not leave streaks and it does not attack clothes. In addition, a carpet impregnated with disinfectant solution sanitizes the shoe soles.

99%
guaranteed
sanitation

SANI-LIFE 4.0 IS EQUIPPED WITH AN AUTOMATIC AND PATENTED SYSTEM, WHICH ALLOWS THE NEBULIZATION OF A SPECIAL MEDICAL SANITIZING AGENT, THROUGH SUITABLY POSITIONED NOZZLES.

In 15 seconds, it is able to completely sanitize the person and the clothes, with particular attention to the soles of the shoes and the hands.

The automatic cycle is activated by a sensor which, after having detected the user entry, leads the sanitation procedure through a synthesized voice.

SANI-LIFE 4.0 IS COMPLETELY AUTOMATED

**Quick, effective, of instinctive use,
no moving mechanical parts,
no maintenance.**

**It automatically starts with the entrance
of the user. It has a very low power
consumption when in stand-by mode.**

**Ideal for intensive use. Sani-Life 4.0
it is suitable for every field: hospitals,
nursing homes, public offices, civic
rooms, gyms, swimming pools,
shopping centres, airports, stations,
squares, museums, theatres, cinemas,
clubs, discos...**

SANI-LIFE 4.0 IS EXTREMELY VERSATILE

The width is designed to allow the passage of wheelchairs, stretchers and cots. The automatic cycle also recognizes and sanitizes the accompanists. It is therefore ideal in premises such as hospitals, centers for the elderly, rehabilitation facilities.

SANI-LIFE 4.0 ENSURES A WIDE SPECTRUM AND DEEP SANITATION.

The disinfectant used is certified as a Medical Biocide, as per EU regulation Nr.528/2012. It is specific for this use, acting on a broad spectrum against viruses and bacteria.

SANI-LIFE 4.0 is also extremely functional for the disinfection of medical and paramedical staff's protective clothing during shifts in infectious wards and before undressing.

For medical use, a more intensive cycle is provided, with additional nebulizing nozzles, ensuring an even deeper sanitization, 99% certified against Viruses, Bacteria and Fungi.
